

Hustle™ VP

BEHIND THE DESIGN: For the last decade, the Hustle™ series has redefined the "entry-level" category, boasting a legacy that includes a sanctioned 900-series and multiple PBA titles. To this day, it remains the pound-for-pound heavyweight champion of versatility on light-to-medium oil.

The Inner Workings: At the heart of every Hustle is the legendary Hustle™ Core. This symmetric shape is engineered for effortless length and a smooth, controllable motion for all skill levels.

The Outer Shell: Wrapped in our VTC™ (Versatile Traction Control) coverstock—available in Solid, Pearl, or Hybrid—this series allows you to dictate exactly when and where the ball reacts. Whether you need a smooth reaction or more down lane, there is a Hustle for the job.

The Bottom Line: The Hustle series is engineered for everyone. From the newcomer drilling their first reactive ball to the seasoned pro competing on the world stage, the Hustle delivers elite performance on every shot.
