

# MARVEL™ MAXX PURPLE

## PURSUIT OF PERFECTION

The Marvel legacy rolls with yet another masterpiece. When bowlers are looking for a ball they can count on when the going gets tough, the Marvel Maxx Purple steps up to the plate. This is another prime example of engineered beauty, excellence, and pure power. You can expect rich, pulsating colors, and a pleasing aroma that will certainly exceed your expectations and leave you wanting more.

## THINK PURPLE

The Centripetal Core has been the engine for many successful balls over the past several years, and the Marvel Maxx Purple is no different.

Leveraging this easy-to-drill core to help clear the fronts, it works flawlessly to give you as much entry angle as possible on drier lanes. The dynamic Centripetal shape ensures reliable backend reaction and excellent pin carry.

The NRG Pro Pearl is making its worldwide debut on the Marvel Maxx Purple. This has been dialed in for higher viscosity environments to add another shape to an already impressive Marvel lineage. The Marvel Maxx Purple comes with an industry exclusive 1500-grit polished gleam that cannot be duplicated anywhere else in the world. Clearing burnt up lane patterns is also now a thing of ease – allowing the ball to use its energy for when it matters most, on the backend and through the pins.

Storm continues to excel in design and workmanship, ensuring you bowl with the best from “The Bowler’s Company™”.

### TECHNICAL DATA

#### COVERSTOCK

*NRG™ Pro Pearl Reactive*

#### WEIGHT BLOCK

*Centripetal™ Core*
