

THE HUNT IS ON 1/11/2023

JACKAL™ AMBUSH

HEAVY OIL

The newest predator in the vicious Jackal™ line, the Jackal™ Ambush will catch opponents off guard with its strength and control of its environment. This ultra-strong beast pushes the boundaries of ball motion and hook in oil, providing a smooth and controlled ball motion, even in the heaviest concentrations. The Jackal™ Ambush allows you to go on the hunt, knowing that you have the strength behind you to dominate.

PREDATOR™ V2 WEIGHT BLOCK

the Predator™ V2 core is ideal in heavy oil conditions when a high performance, asymmetrical core with a low RG and high Differential is necessary.

15# RG: 2.47 | 15# Diff: .054 | 15# Int. Diff: .015 | Flare: 7"+

LEVERAGE™ SOLID REACTIVE

The Jackal™ Ambush introduces the release of a brand new coverstock system; Leverage™ Solid Reactive. Leverage™ coverstock technology is formulated to be smoother down lane and stronger in the oil than the Coercion™ coverstock systems previously used for this ball motion. This is the most aggressive coverstock system ever developed in the MOTIV® ball line.

1000 GRIT LSS FINISH

A 1000 grit LSS finish provides extra teeth for more bite on the lanes. This additional traction pairs with Leverage™ cover technology to provide a strong and smooth ball motion.
