

GREMLIN TOUR-X

FEATURES & BENEFITS:

CORE TECHNOLOGY: The Rondure™ TOUR-X Core is a precision-engineered modification of the proven Rondure shape. By manipulating the internal mass densities, we have successfully lowered both the Radius of Gyration and the Differential. This intentional shift provides a highly controllable, medium-flaring asymmetric dynamic, perfectly tuned to deliver the smooth, professional-grade motion demanded by elite players.

COVER TECHNOLOGY: The V-R1™ Hybrid Reactive is an advanced, nano-free formulation designed for a more aggressive footprint on the lane. By utilizing a precisely engineered 2:1 ratio—blending two parts solid & one part pearl—this coverstock achieves a potent balance of unadulterated havoc and refined predictability. The solid components ensure maximum mid-lane traction, while the pearl additive provides more response through the backend. The result is a tour-level coverstock that offers consistent & continuous motion.

PERFORMANCE SYNOPSIS: Engineered specifically for bowlers seeking more overall control and a predictable, continuous motion throughout the entire lane. The combination of the Rondure™ TOUR-X Core and the balanced V-R1™ Hybrid Coverstock creates a highly versatile and tunable ball that excels on a wide variety of oil patterns, making it a staple for any competitive arsenal.

PRODUCT DETAILS:

COVERSTOCK: V-R1™ Hybrid Reactive

CORE: Rondure™ TOUR-X Core

COLOR: Smoke / Velvet / Ink

FINISH: 4000 Abralon®

CONDITION: Medium to Medium/Heavy

FLARE POTENTIAL: Medium

AVAILABLE WEIGHTS: 16 – 12 lbs.

PRODUCT SKU: RGV

16-14 lbs.

13-12 lbs.
