

## THERE'S A NEW APEX PREDATOR **CRIMSON JACKAL™**

### HEAVY OIL

Just like a predator in the wilderness, the Crimson Jackal thrives on two critical factors: lightning speed and unmatched agility. The Crimson Jackal emerges as the apex predator on the lanes, boasting an unprecedented ability to change directions in the blink of an eye and respond to friction faster than any Jackal before. The Crimson Jackal is a predator with a killer instinct like no other.

### PREDATOR™ V2 WEIGHT BLOCK

Powering the Crimson Jackal is the Predator V2, a legend in its own right and a dynamic powerhouse. This beast is designed to be the strongest core in any bowler's bag.

### PROPULSION™ HV+ PEARL REACTIVE

We've conquered the challenge of creating a coverstock that delivers lightning-fast response in a heavy oil environment with new Propulsion HV+ cover technology. The strongest Propulsion shell to date, Propulsion HV+ takes performance to the next level. When paired with the Predator V2 core, this shell guarantees bowlers can wield this monster core even when attacking the lanes at steep angles.

### 5000 GRIT LSS FINISH

A 5000 grit LSS finish adds length through the front of the lanes while still proving plenty of traction for a strong motion on the backend.
