12 lb	2.65	.035

DESIGN INTENT:

For nearly a decade, the Phaze II has stood as the undisputed benchmark for symmetric performance on medium to heavy oil. To create a true companion worthy of the name, we chose to keep the formula simple yet purposeful. The exact same colors in the Phaze II have been used in the Phaze II Pearl. The only difference is they are in a pearl form. The cover has also been upgraded to TX-25. Extensive testing revealed that, to fully unlock its potential, the pearl cover needed to be stronger than the solid. This enhancement allows the Phaze II Pearl to deliver maximum performance with remarkable consistency. Anchored by the proven Velocity Core, it blends a smooth, early revving motion with a powerful, commanding backend. The Phaze II Pearl broadens the spectrum of performance within the Master line by bridging the gap between the original Phaze II Solid and IQ Tour series.
